

LIQUID WAX CLEANER SPRAY

Cleans and refreshes in one step!

3029 Clear

Product description:

Osmo Liquid Wax Cleaner Spray is for the occasional refreshing of wooden flooring treated with Polyx®-Oil, furniture as well as other oiled and waxed wood surfaces in indoor areas. Through appropriate care, the surface is provided with the natural, safe hard waxes. The floor stays durable without forming a film.

Recommended use:

Osmo Liquid Wax Cleaner Spray is ideal for removing stubborn stains, such as grease or shoe polish, and best suited for refreshing all surfaces treated with Osmo Polyx®-Oil.

Ingredients:

Based on natural plant waxes, paraffin, aliphatic hydrocarbons (> 30%).

Technical Data:

Specific gravity: 0.77-0.8 g/cm³

Odour: faint/mild, odourless after drying

Flashpoint: not required

pH value: not required

Storage:

5 years and longer if stored in the closed original can.

Surface Preparation:

Wood surface must be dust-free and dry. A dust mop, a mop or a vacuum cleaner is usually suitable for removing dust. For simple cleaning and maintenance, Osmo Cleaning Kit for Floors (Dust-Mop, Micro-Mop Plush and an Active Fibre Cloth) is highly recommended. High traffic and high wear floor surfaces, for example commercial interiors, should first be damply mopped (water with Osmo Wash and

Care) and allowed to dry.

Methods of Application:

First clean the wood surface with a dust cloth, mop or vacuum cleaner. Surfaces treated with Osmo Polyx®-Oil can be cleaned effortlessly with a well wrung out, damp cloth (with water and Osmo Wash & Care). Shake well before use. For regular maintenance, hold spray can upright and spray sparingly onto the clean and dry surface at a distance of about 30 cm (12 inches), and rub evenly with a cloth or a scouring pad. To remove stains, spray directly onto the contamination – for especially stubborn stains, use a cloth or scouring pad. Wipe away loosened dirt.

Cleaning of tools:

With Osmo Brush Cleaner (free of aromatic compounds).

Drying time:

Approx. 30-40 minutes (normal climatic conditions, 23 °C/50 % rel. humidity). Ventilate well while drying. Lower temperatures and/or higher air humidity may increase drying times.

Coverage:

The coverage of Osmo Liquid Wax Cleaner Spray depends significantly on surface absorption and on the level of contamination. (1 litre spray covers approx. 80-100 m².)

Note:

By applying hard waxes regularly, flooring stays refreshed and stain and wear resistance is improved. However over the years, it is absolutely essential to re-apply the necessary oil ingredients in Polyx®-Oil

to flooring. Only use very sparingly otherwise traffic marks may appear.

Caution:

Extremely flammable aerosol. Pressurised container: May burst if heated. Do not spray on an open flame or other ignition source. Keep away from heat/open flames. No smoking. Do not pierce or burn, even after use. Protect from sunlight. Do not expose to temperatures exceeding 50 °C. Repeated exposure may cause skin dryness or cracking. Keep out of reach of children. Do not get in eyes, on skin, or on clothing. Do not breathe mist/vapours/spray. Use only outdoors or in a well-ventilated area. If medical advice is needed, have product container or label at hand. Propellant: propane/butane.

Danger

Disposal:

Dispose of product residuals and completely emptied containers according to the local official guidelines (EU-waste code key number 08 01 11*). Only fully emptied containers can be recycled.

Colour tone:

3029 Clear

Size:

0.4 l
