Hazards identification	
Classification of the	
substance or mixture	The product is not classified, according to the Globally Harmonised System
	(GHS).
Additional information:	For the wording of the listed hazard phrases refer to section 16.
	(Contd. on page

Page 2/10

Safety data sheet according to UK REACH

Printing date 19.02.2025

Version number 18.0

Revision: 21.05.2024

Trade name: One Coat Only HS Plus

	(Contd. of page 1)
Label elements	
Hazard pictograms	Void
Signal word	Void
Hazard statements	Void
Precautionary statements	P101 If medical advice is needed, have product container or label at hand. P102 Keep out of reach of children.
	P262 Do not get in eyes, on skin, or on clothing.
	P271 Use only outdoors or in a well-ventilated area.
Additional information:	EUH210 Safety data sheet available on request.
Other hazards	Warning:
	Wash out any used cloth impregnated with this product immediately after use or store in an airtight container (danger of self-ignition)
	Always wear a dust mask when sanding.
	Observe the general safety regulations when handling chemicals.
Results of PBT and vPvB as:	sessment
PBT:	Not applicable.
vPvB:	Not applicable.

3 Composition/information on ingredients

Chemical characterisation: Mixtures

Mixture of substances listed below with nonhazardous additions.

Dangerous components:		
CAS: 64742-48-9	aliphatic hydrocarbons, C10-C13 n-alkanes, i-alkanes, cyclics,	25–50%
	aromatics < 2 %	
Reg.nr.: 01-2119457273-39	🚯 Asp. Tox. 1, H304	
CAS: 13463-67-7	titanium dioxide - aerodynamic diameter >10 μm	0-<20%
EINECS: 236-675-5		
Additional information:	For the wording of the listed hazard phrases refer to section 16.	

4 First aid measures

Description:

Description of first aid measures

General information:	Take affected persons out into the fresh air.
After inhalation:	Supply fresh air; consult doctor in case of complaints.
	In case of unconsciousness place patient stably in side position for transportation.
After skin contact:	Rinse with warm water.
	Immediately wash with water and soap and rinse thoroughly.
	If skin irritation or rash occurs: Get medical advice/attention.
After eye contact:	Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.
	(Contd. on page 2)

(Contd. on page 3)

Safety data sheet according to UK REACH

Printing date	19.02.2025
---------------	------------

Version number 18.0

Trade name: One	Coat	Only	HS Plus
-----------------	------	------	---------

	(Contd. of page 2)
After swallowing:	Rinse mouth. If swallowed, seek medical advice immediately and show this container or label. Do NOT induce vomiting.
Information for doctor: Most important symptoms and effects, both acute and delayed Indication of any immediate	Dizziness
medical attention and special treatment needed	If swallowed or in case of vomiting, danger of entering the lungs.
5 Firefighting measures	
Extinguishing media Suitable extinguishing	
agents:	CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
For safety reasons unsuitable	,
extinguishing agents: Special hazards arising from	Water with full jet
the substance or mixture	Formation of toxic gases is possible during heating or in case of fire. Carbon monoxide (CO) carbon dioxide (CO2)
Advice for firefighters	
Protective equipment:	Mouth respiratory protective device. Do not inhale explosion gases or combustion gases. Wear self-contained respiratory protective device. General measures for chemical fires.
Additional information	Dispose of fire debris and contaminated fire fighting water in accordance with official regulations. Cool endangered receptacles with water spray.

6 Accidental release measures

Personal precautions, protective equipment and		
emergency procedures	Ensure adequate ventilation	
	Wear protective clothing.	
Environmental precautions:	Do not allow to enter sewers/ surface or ground water.	
Methods and material for		
containment and cleaning up	: Absorb with liquid-binding material (sand, diatomite, acid bind binders).	ers, universal
	Dispose of the material collected according to regulations.	
		(Contd. on page 4)

Revision: 21.05.2024

Safety data sheet according to UK REACH

Version number 18.0

Trade name: One Coat Only HS Plus (Contd. of page 3) Dispose contaminated material as waste according to section 13. Ensure adequate ventilation. Reference to other sections See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling: Even a small sip can lead to life-threatening damage to the lungs. Keep rags filled with this liquid out of the reach of children. Precautions for safe handling Use only in well ventilated areas. Ensure good ventilation/exhaustion at the workplace. Open and handle receptacle with care. Prevent formation of aerosols. General protective and Wash hands before breaks and at the end of work. hygienic measures: Do not eat, drink, smoke or sniff while working. Do not carry product impregnated cleaning cloths in trouser pockets. Information about fire - and explosion protection: Keep respiratory protective device available. Conditions for safe storage, including any incompatibilities Storage: Requirements to be met by storerooms and receptacles: Store only in the original receptacle. Information about storage in one common storage facility: Not required. Further information about storage conditions: Store receptacle in a well ventilated area. Keep container tightly sealed. Store in cool, dry conditions in well sealed receptacles. No further relevant information available. Specific end use(s) 8 Exposure controls/personal protection **Control parameters** Ingredients with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: The lists valid during the making were used as basis. (Contd. on page 5) Page 5/10

Safety data sheet according to UK REACH

Exposure controls	
Personal protective equipment	nt:
General protective and	
hygienic measures:	Immediately remove all soiled and contaminated clothing
	Avoid contact with the eyes and skin.
	The usual precautionary measures are to be adhered to when handling
	chemicals.
	Do not eat, drink, smoke or sniff while working.
	Do not carry product impregnated cleaning cloths in trouser pockets.
	See Section 7 for information on safe handling.
Respiratory protection:	Not necessary if room is well-ventilated.
	Use suitable respiratory protective device only when aerosol or mist is forme
	In case of brief exposure or low pollution use respiratory filter device. In case
	of intensive or longer exposure use self-contained respiratory protective
	device.
	Half mask with round thread connection EN 148-1 (screw-on filter) and
	combination filter A1 - P2 according to German DIN EN 14387.
	Use a properly fitted, air-purifying or air-fed repirator complying with an
	approved standard if a risk assessment indicates this is necessary.
Protection of hands:	To avoid skin problems reduce the wearing of gloves to the required minimu
	Protective gloves
	The glove material has to be impermeable and resistant to the product/ the
	substance/ the preparation.
	Selection of the glove material on consideration of the penetration times, rate
	of diffusion and the degradation
Material of gloves	The selection of the suitable gloves does not only depend on the material, bu
material of grovee	also on further marks of quality and varies from manufacturer to manufacture
	As the product is a preparation of several substances, the resistance of the
	glove material can not be calculated in advance and has therefore to be
	checked prior to the application.
Penetration time of glove	
material	The exact break trough time has to be found out by the manufacturer of the
material	The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.
For the normanant contact	protective gloves and has to be observed.
For the permanent contact	
gloves made of the following	For the privation of the private state of the low the property time the table to be
materials are suitable:	For the mixture of chemicals mentioned below the penetration time has to be
	at least 480 minutes (Permeation according to EN 16523-1:2015: Level 6).
	Nitrile rubber, NBR
	Recommended thickness of the material: ≥ 0.4 mm
	For the mixture the penetration time has to be at least 480 minutes
• , ,, • • • •	(Permeation according to EN 374 Part 3: Level 6).
As protection from splashes	
gloves made of the following	
materials are suitable:	Nitrile rubber, NBR
Eye protection:	Tightly sealed goggles
